UBAID ULLAH ASIM

Senior Flutter & Backend Developer

Summary

I'm a passionate application and software developer specializing in cross-platform mobile app development using Flutter & Dart and robust backend systems using Node.js and NestJS. With hands-on experience building intuitive, high-performance mobile applications and scalable backend architectures, I deliver full-stack solutions tailored for performance, security, and great user experience.

Proficient in JavaScript, TypeScript, and modern frameworks, I develop both client-side and server-side systems. My background in project leadership strengthens my ability to collaborate across teams and deliver projects on time. I'm driven by continuous learning and innovation, and I thrive in fast-paced, collaborative environments where I can contribute meaningful technical solutions.
